INTRODUCTION

This comprehensive guide gives you all you need to know about the wider qualifications, apprenticeship end-point assessment and industry professional certifications offered by BCS.

We're dedicated to ensuring that our education offering is at the forefront of quality digital learning and provision.

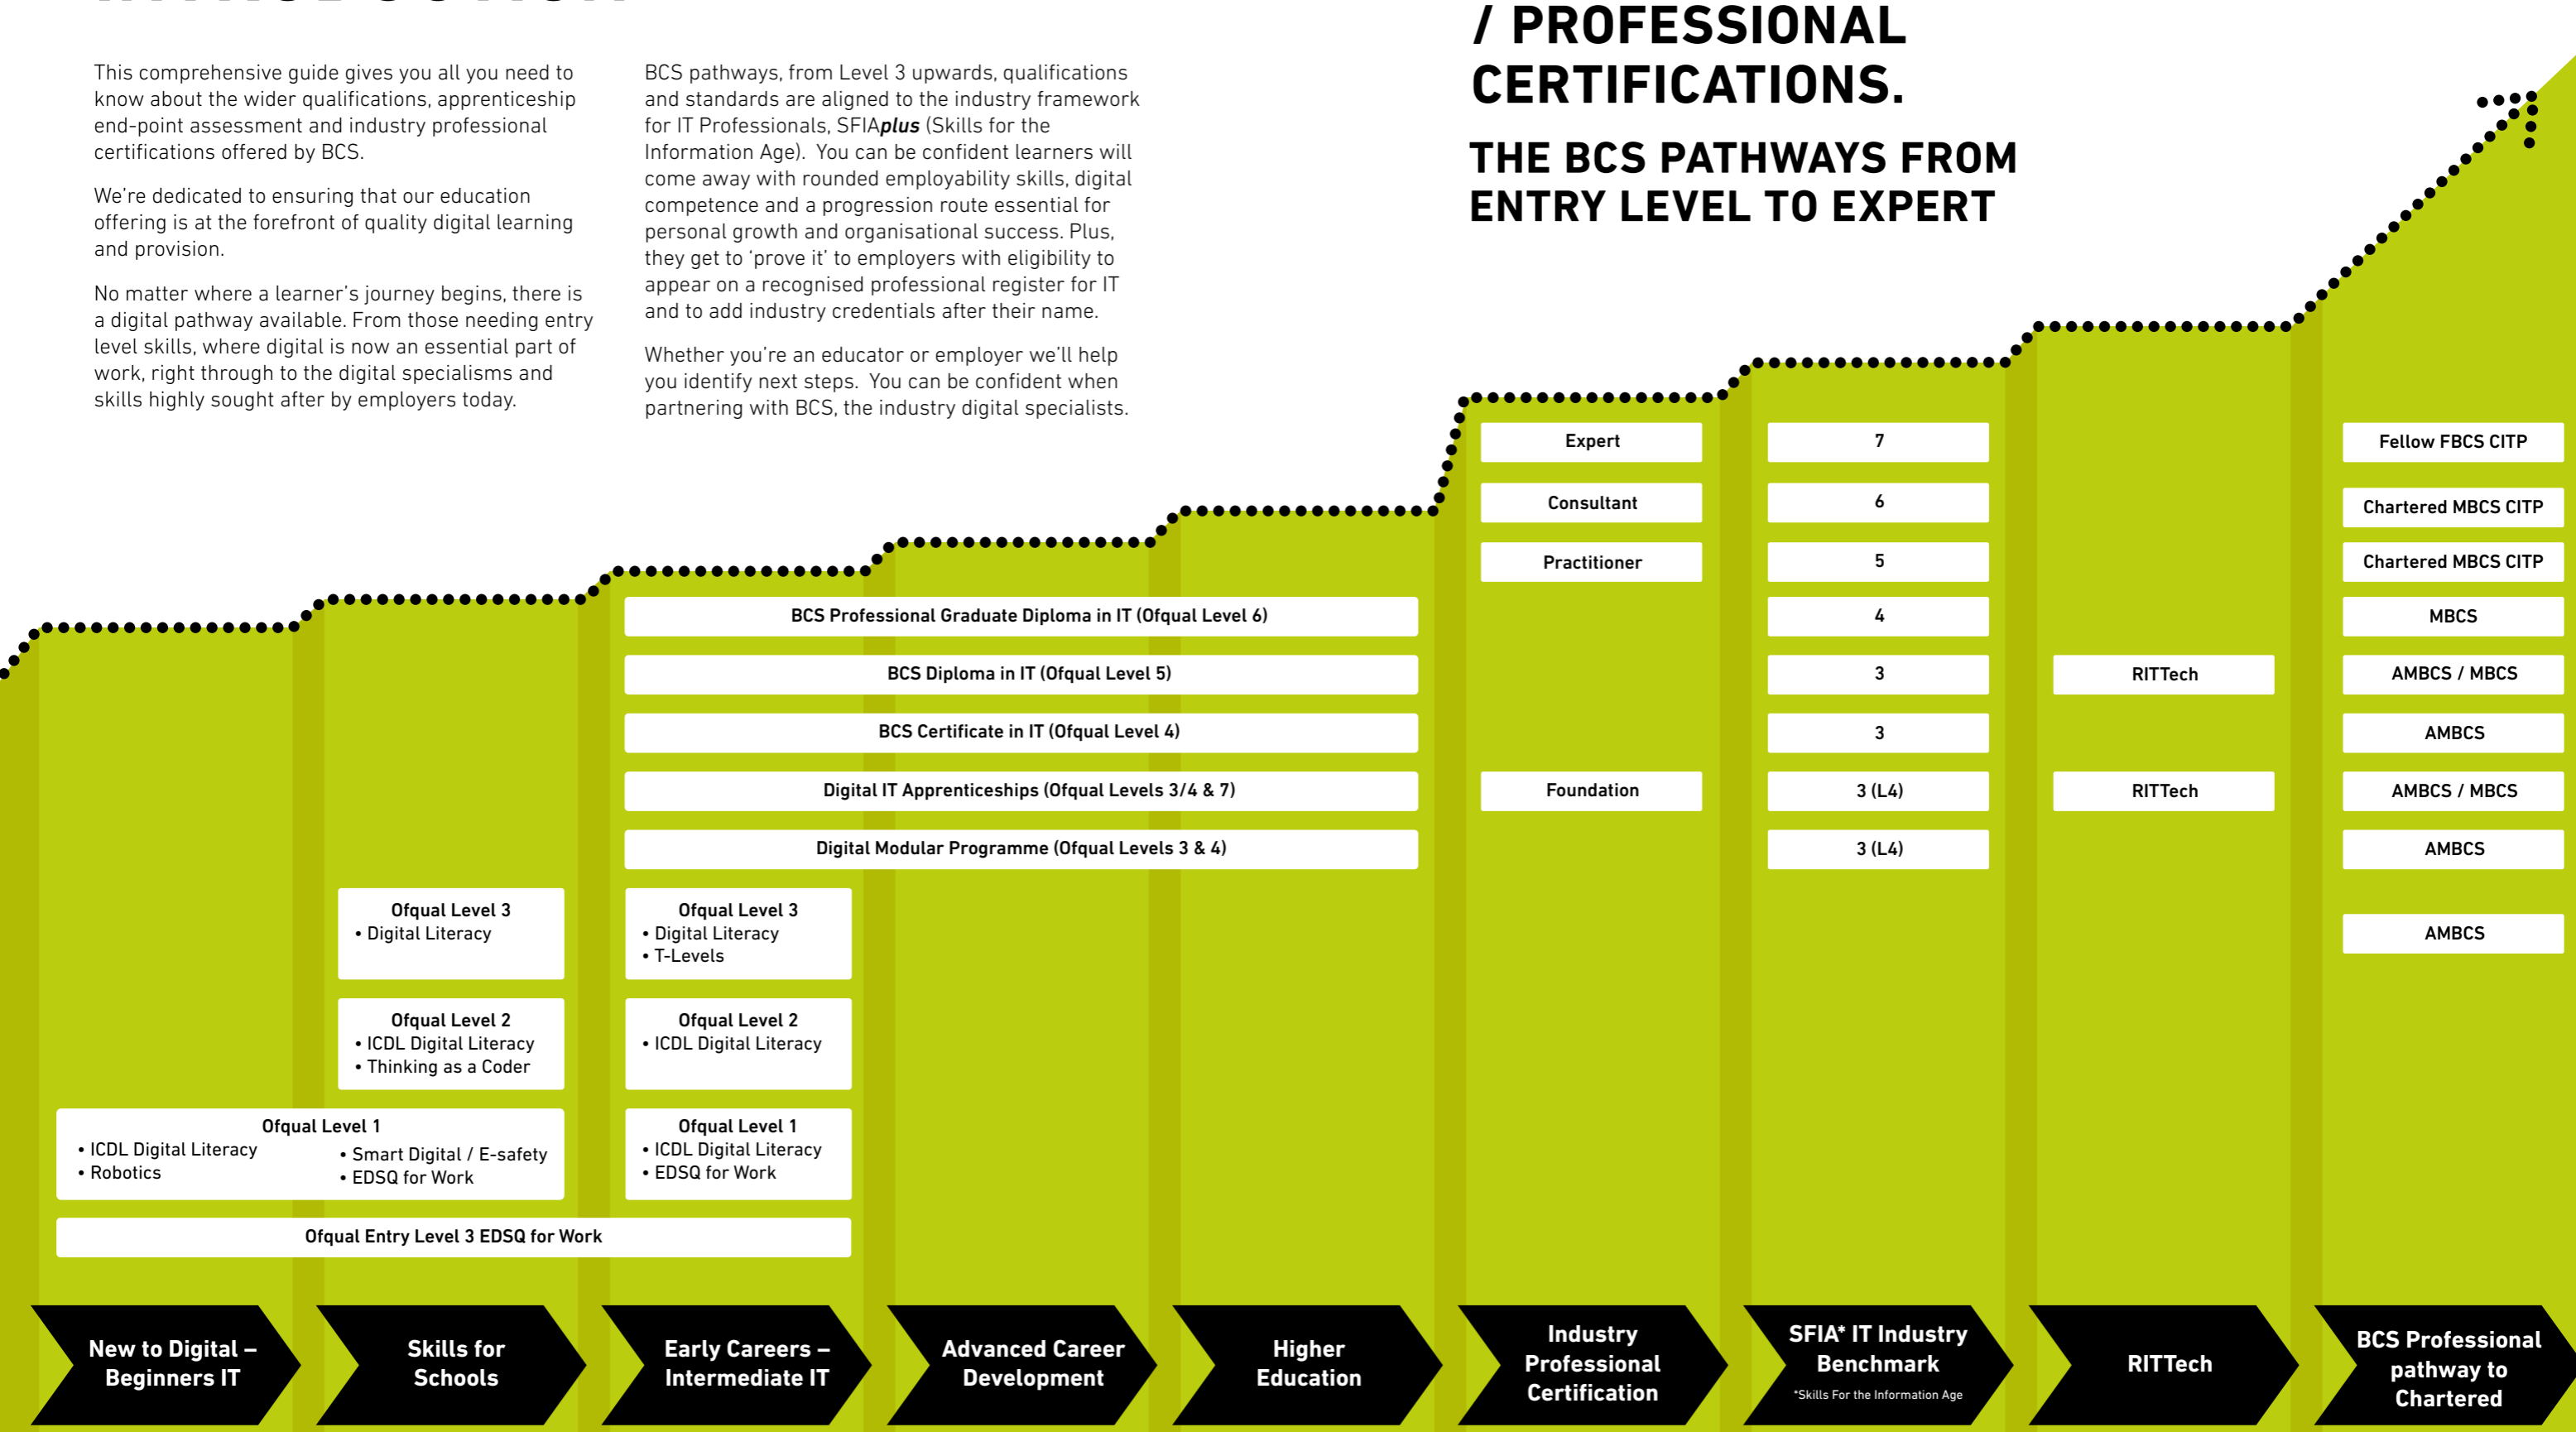

No matter where a learner's journey begins, there is a digital pathway available. From those needing entry level skills, where digital is now an essential part of work, right through to the digital specialisms and skills highly sought after by employers today.

BCS pathways, from Level 3 upwards, qualifications and standards are aligned to the industry framework for IT Professionals, **SFIAplus** (Skills for the Information Age). You can be confident learners will come away with rounded employability skills, digital competence and a progression route essential for personal growth and organisational success. Plus, they get to 'prove it' to employers with eligibility to appear on a recognised professional register for IT and to add industry credentials after their name.

Whether you're an educator or employer we'll help you identify next steps. You can be confident when partnering with BCS, the industry digital specialists.

DIGITAL LITERACY QUALIFICATIONS

BCS ITQs are IT qualifications made up of units in the ITQ framework. The framework of units cover all aspects of IT application including word processing, spreadsheets, the internet, multimedia software and design software. Our range of ITQs includes our global suite of ICDL qualifications.

ICDL qualification modules are individually certified, to be awarded a full qualification, the modules that make up an Award, Certificate and so on, must be fully completed. You can create bespoke packages to suit individual learners comprising of the modules below:

- IT user fundamentals
- Internet and email
- Word processing
- Spreadsheets
- Presentations
- Databases
- Online collaboration
- Improving productivity
- Project planning
- IT security

EARLY CAREERS

When you partner with the professional body for IT, you join our respected digital skills community - a global network of professionals committed to sharing knowledge and good practice and influencing the digital skills agenda.

All on programme apprentices can apply for AMBCS and once they have successfully completed their EPA are eligible to apply for BCS Professional Membership (MBCS) and automatically qualify for RITTech (Register of IT Technicians).

- BCS is an approved and trusted end-point assessment organisation selected to assess 20,000 plus digital apprenticeships.
- We support apprentices not only through a best-in-class end-point assessment, but also their on-going journey to trusted professional.
- Our experienced and dedicated team of full-time subject matter expert assessors lead over 90 associate assessors.
- Our assessors take part in rigorous training, moderation, and standardisation, delivering confidence to apprentices and employers.
- Exclusive e-learning support through our partnership with Pluralsight.
- Established provider community, regular forums, updates, networking events and newsletters.

EQA Providers: Ofqual & National Skills Academy for Rail (NSAR)

ONLINE/CLASSROOM/REMOTE:

- Work based learning
- Variety of assessment methods

RECOMMENDED ENTRY REQUIREMENTS:

In some cases 5 GCSE's /or A levels/ or other relevant qualifications may be required.

Apprentices without level 2 English and maths will need to achieve this level prior to taking the end-point assessment.

All apprenticeships standards are mapped to the industry framework SFIA* Skills for the Information Age and to BCS Professional Membership and apprentices are eligible to appear on successful completion the industry approved IT register, RITTech.

NEW SUPPORT FOR PROVIDERS OF DIGITAL T LEVELS

BCS has launched a new programme to support providers of Digital T- Levels and to help student's progress to achieve professional recognition to help set them apart from their peers.

Our package includes resources and industry insight materials for providers and students, and will help them progress towards gaining their professional RITTech registration where your students are eligible

to appear on a professional register, which carries post nominal letters after their name, giving them industry credentials, whilst giving employers the confidence your learners have proven IT competence and are benchmarked against industry standards set for the profession.

Advanced Learner Loans until August 2022

Whether a learner is looking for a new job or taking a step up in their place of work to become a departmental expert in Office applications, adding a level 3 digital qualification will boost their progression.

The BCS Level 3 Certificate in IT (ICDL) comes under the UK Government Lifetime Skills Guarantee – eligible learners can now get qualified for FREE in work or not. Units can be taken and certified individually giving flexibility where someone might want to gain expertise in just one or two Office applications.

DIGITAL MODULAR PROGRAMME

The Digital Core Module provides employees and prospective employees with the basic concepts and understanding for Cyber Security, Networks, Data, Programming, Systems and Applications - all of which are ubiquitous within every business and across every digital role.

- Ofqual regulated
- One year of BCS Early Career Membership included
- Can be delivered as a blended programme
- Online multiple-choice and scenario-based Knowledge Test

- Automated results
- No marking
- Synoptic Project - written assessment
- Delivered as a stand-alone qualification or as part of an apprenticeship
- Teaching / learning resources
- Aligned to the skills framework SFI**Aplus**, the industry defined and recognised benchmark for IT

HIGHER TECHNICAL QUALIFICATIONS

The BCS Digital Modular Level 4 qualifications, Data Analyst and Software Developer have been approved as Higher Technical Qualifications with delivery from September 2023.

Higher Technical Qualifications are either new or existing Level 4 and 5 qualifications approved by the Institute for Apprenticeships and Technical Education (IfATE) as meeting occupational standards for the relevant sector

Key Information:

Two modules will need to be completed for a certificate.

Each module will have its own guided learning hours and total qualification time.

The Digital Core will take an estimated 87 hours in total to complete.

Individual modules will vary between 320 – 450 hours depending on the subject matter to be covered as part of the specialism.

Assessment Method: Digital exam and synoptic project.

Watch the explainer video:

[An introduction to the Digital Modular Programme VA DMP IDMP 00054 V1.0 \(panopto.eu\)](#)

(NOTE: The project is not required if undertaking the DMP as part of an Apprenticeship which includes End Point Assessment)

www.bcs.org/dmp

BCS HIGHER EDUCATION QUALIFICATIONS

BCS Higher Education Qualifications (HEQ) are aligned to professional standards and mapped to the IT industry framework SFIA^{plus}*, examined at degree level, and accredited by the UK regulator Ofqual.

HEQ will give learners a head-start to becoming a recognised IT Professional and a pathway towards Chartered status –raising the global ethical standards of practise within the IT profession.

Not only has this qualification programme provided many young people an entry route into a career in IT, but it has also complemented degrees studied around the globe and gives access onto higher education such as a top-up-degree or Masters.

This is a flexible qualification suitable for those who are looking to return to work, or to gain professional credentials and professional membership of their industry body to support career progression, especially for those who may not gone through a formal route of education and are currently working in IT.

LEVEL 4

BCS LEVEL 4 CERTIFICATE IN IT

QAN: 100/6181/2

Three core modules – comparable to the first year of a degree

- [Information systems](#)
- [Software development](#)
- [Computer and network technology](#)

Recommended course study duration: 200 hours per module

The total qualification time (TQT) for this course is 734 hours.

Assessment: Written examination

Our [qualification guide](#) provides more information

NO FORMAL ENTRY CRITERIA

Recommended for someone currently working in IT (without formal qualification) or is studying/has studied at a suitable level of education.

You need to be 16 years of age and over to take a HEQ qualification.

LEVEL 5

BCS LEVEL 5 DIPLOMA IN IT

QAN: 100/6190/3

A core module and three selected modules.

For learners who are not progressing onto the Level 6, they will be required to take a 5000-word project as part of the Diploma in IT qualification.

Core module

- [Professional issues in IS practice syllabus](#)

Selected modules (choose three)

- [Big data management syllabus](#)
- [Computer networks syllabus](#)
- [Database systems syllabus](#)
- [IT project management syllabus](#)
- [Object oriented programming systems syllabus](#)
- [Principles of Internet technologies syllabus](#)
- [Smart systems syllabus](#)
- [Software engineering \(part 1\) syllabus](#)
- [Systems analysis and design syllabus](#)
- [User experience syllabus](#)
- [Web application development syllabus](#)

Our [qualification guide](#) provides further information

Recommended course study duration: 225 hours of study for each module.

The total qualification time (TQT) for this course is 1086 hours.

An additional 200 hours of study will be required if your learner needs to complete a professional project in IT.

Assessment: Written examination

ENTRY CRITERIA:

You need to have passed, or been made exempt from, the BCS Certificate in IT

LEVEL 6

BCS LEVEL 6 PROFESSIONAL GRADUATE DIPLOMA IN IT

QAN: 100/6191/5)

Credits: 141

Our [qualification guide](#) provides more information

Four selected modules and a 10,000 word Professional IT Project

- [Advanced database management systems syllabus](#)
- [Management information systems syllabus](#)
- [Software engineering \(part 2\) syllabus](#)
- [Computer services management syllabus](#)
- [Network information systems syllabus](#)
- [Programming paradigms syllabus](#)
- [System design methods syllabus](#)
- [Web engineering syllabus](#)
- [IT and the environment syllabus](#)

Recommended course duration: 250 hours per module

The total qualification time (TQT) for this course is 1414

300 additional recommended hours to complete the professional project.

Assessment: written examination

Entry requirement: Passed or made exempt from the BCS Certificate in IT and the BCS Diploma in IT.

BCS Higher Education Examinations are sat twice yearly.

INDUSTRY PROFESSIONAL CERTIFICATION

BCS Professional Certifications have been developed for industry by industry for over 25 years and are delivered globally. Our certifications are aligned to the industry IT framework SFIPlus* and provide an industry recognised pathway that supports applications for Chartered registered professional (CITP) – the pinnacle of IT professionalism.

Our aim is to support technological advancements and the people who deliver them, with the required knowledge, skills and behaviours essential in every type of organisation and industry.

To support industry skills, our portfolio is ever evolving and consists of over 95 certifications in 5 core subject areas:

- Cyber
- Data
- Artificial Intelligence (AI)
- Business Analysis
- Software Testing,

BCS professional certifications also enhance Higher Education programmes, giving under-graduates recognised industry credentials, whilst enhancing their employment prospects, and will also support those who are working or studying in early careers, such as a digital apprenticeship, or a career-changer. We have pathways for those who are already established and working in digital roles today.

Our advanced certification, including some of our new modular Awards have been designed specifically for business leaders, to keep their knowledge, leadership skills and competence attuned to the rapid digital changes we are now seeing in every business, helping them successfully lead teams and/or deliver digital transformation within their own organisations.

ARTIFICIAL INTELLIGENCE FOUNDATION PATHWAY

This highly accessible learning pathway supports candidates looking to work in the field of artificial intelligence, as well as other IT and business professionals who need to understand how AI affects their role and organisation.

BITE-SIZED LEARNING

12 AWARDS SET WITHIN FOUR KEY AREAS OF AI:

- Business Innovation
- Data
- Ethics
- Machine learning and other techniques

Each award is certified and carries between 3 and 5 credits

Credits are built towards:

BCS Foundation Certificate in AI (20 credits)

BCS Foundation Diploma in AI (36 credits)

The pathway is also aligned with the Artificial Intelligence (AI Data Specialist Apprenticeship at level 7)

Candidates learn how data enables AI to perform, how it's cleaned, structured and stored - and specifically focusing on machine learning how to use data in the right way, work with security protocols and tackle issues

No formal entry requirements

DATA

ETHICS

Candidates learn how data enables AI to perform, how it's cleaned, structured and stored - and specifically focusing on machine learning how to use data in the right way, work with security protocols and tackle issues around ethics.

AI's ability to learn, replicate and predict means it will have a considerable impact on society and our environment if we don't approach it ethically, sustainably and with clear governance. This set of awards explores the impact of decision-making and is vital learning for any forward-thinking IT professional.

FOUNDATION

BCS FOUNDATION AWARD - UNDERSTANDING DATA IN YOUR ORGANISATION

DO YOU HAVE DIGITAL EXPERTISE?

LOOKING FOR A FLEXIBLE, FREELANCE OPPORTUNITY TO USE THOSE SKILLS?

BCS, The Chartered Institute for IT, is recruiting Associate End-Point Assessors for their digital apprenticeships, across all tech specialisms.

WORK REMOTELY WITH HOURS TO SUIT AND MARKET LEADING RATES OF PAY.

As the UK's leading digital apprenticeship end point assessment organisation, BCS has a network of experienced digital professionals who are passionate about helping apprentices achieve the best possible result during their assessment.

Whether you're looking for extra work to fit around an existing job, are returning to the workplace after a break or just want to work more flexibly, you choose. With days and hours to suit you in this 100% home based role, the work can be hugely rewarding as you support the next generation of IT professionals.

No previous assessor experience is needed – we provide comprehensive training and all the support you need to assess confidently and independently. What you will need, is a minimum of 5 years' experience in your area of digital expertise and a strong desire to support the new apprentices starting out in their IT careers.

"Working with and supporting apprentices was something I was very interested in. I felt it would be meaningful work. The fact that I was able to do it using skills I've developed over my years of working was a bonus. The job itself is also fantastic in terms of work/life balance"
