

Faculty of Health and Care

The Future of The Profession

Sonia Patel, Chief Technology Officer, NHS England
Chair, BCS Fellowship

Faculty of Health and Care Inaugural Conference – 10 October 2024

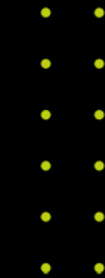

Our Mission

To develop a **professionalised workforce of digital and data specialists** in sufficient numbers and of the right capability, across the NHS health and care system.

Our Digital Profession 24/25

- **Develop and Optimise** the Digital and Data Professions
- Advancing **workforce planning** and intelligence
- Build **vibrant community** of learning and training
- **Equality, Diversity & Inclusion**
- Advance the **approach to pay and reward**
- Development of **Digital Leaders**

The Future is Bright

- The British Computing Society (BCS) plays a crucial role in this professionalisation journey through its development of the Faculty of Health and Social Care and through the creation of **innovative ways to support professional development and education.**
- We owe it to our patients, our healthcare professionals, and our society to ensure that our workforce is the best it can be - **skilled, capable, and ready to leverage technology and data to transform healthcare outcomes.**
